Quality Policy

Tacotherm Ltd market and sell a range of branded HVAC controls and components from leading manufacturers and suppliers to the plumbing and heating industry via plumbers' merchants and commercial installers throughout the UK and Ireland.

Tacotherm Ltd has been based in Southampton in Hampshire since 2000 and in this time the staff have built up an expert technical knowledge of the components and controls it markets and the systems where they are applied. The Company's main business areas are hydronic balancing, heating & cooling distribution systems, heat exchanger system technology and control valves and accessories.

Tacotherm has implemented a quality management system to the ISO 9001:2015 standard. We are committed to comply with all its requirements and to continually improve its effectiveness and seek to continually improve the quality of our products range and services. Our objective is to meet the specified requirements and expectations of our customers to satisfy their expectations with expert advice and support. All our products are manufactured to comply with industry-specific requirements and regulations and are characterized by high quality and a long service life.

Tacotherm Ltd has introduced systems that will set and review measurable quality objectives. The Directors will provide appropriate resources as required in order to enable the company to meet these objectives. All staff and people working on behalf of the company are made aware of the aims and objectives of the Quality Management System and associated operating procedures; they are expected to adhere to its requirements and are encouraged to suggest ways in which these can be improved.

This Policy is available on our website and is displayed in our office, and is reviewed annually.
